Samsung usb drivers for mac The Vag-com was awesome for VW stuff It even ran under 64-bit Vista.. Galletto 1260 is a clone, and not a very good one at that Might read and write your ECU, then again it might stop half way through a write and turn your ECU into a brick.. It is highly recommended that you review all the data for accuracy A basic tester that scans SES codes? Or a full on diagnostics like a Tech 2? If you are wanting a standard tester, you can get one at autozone for \$80, thats all you really need. [Ygopro Download Mac](#)
